Dear Sir,

I retired from Leman Brothers after 20 years with the company. I worked very hard to support my family with the guarantee that I would receive health care benefits when I retired. Both my husband and I have pre-existing health care issues. I strongly urge you to retain the \$25 million in question for the health care program for retirees and not reimburse it to LBHI. In addition, I believe that Dick Fuld should pay part of the \$500 million compensation he received in the 5 years before Lehman went bankrupt into the health care program for retirees. He is the reason we are in this predicament.

Sincerely,

Barbara Malina
